PSST FACILITIES REPORT:
Chief Muenz gave the PSST Facilities Report regarding the Blue Springs Public Safety Building.

We also suffered an AC outage in June, and it was determined that the system was operating at 50% capacity. Maintenance staff have been working with the HVAC company, Johnson Controls, to determine a fix. Fortunately, we are under warranty until 2028 on the chiller through Johnson Controls. However, we are still operating at 50% capacity until it can be repaired. The repair may take several weeks or even months to complete and require a complete shutdown, so we are waiting for cooler weather to proceed. If it does not continue to function, we have to look at some temporary cooling measures that would require unexpected costs. We are waiting on cool weather to begin the repair on this item, as well as negotiating with the company regarding warranty. These repairs are underway and should be completed by Spring. The repairs are being completed under warranty.

There was a failure on fan #2 in an air handler unit on the roof that controls the AC on the second floor and some of the court area. The parts have been ordered and hopefully the repairs will be completed soon. The cost for the repair is estimated to be about $7,000.00. While there were many days without heat this winter due to the failure of the air handler, it was finally partially repaired in late December and is moving warm air. It is not fully repaired yet though as they are still waiting on some parts.

Chief Muenz reported that both items above have been completed and there are no other major building issues at this time.
